

Save our Songs Virtual Summer Camp

7 - 12 june / 5 - 10 july 2021

We'll call it 'Summer Songs' to keep it short and sweet.

Summer songs is six days (Monday thru Saturday) of fun singing in a small international group of maximum 20 singers, getting to know new people, and practicing your singing technique in a relaxed way through zoom sessions and prerecorded files.

Your guide will be Anke, who has been a choir master & singing teacher for over twenty years, and whose enthusiasm is contagious - in a safe way :-). Her specialty is to teach singers to find in their voices a combination of technical knowledge, joy and freedom of sound.

The repertoire will be songs of all periods, in not-so-difficult-to-sing and beautiful arrangements for three and four voices.

Read below what participants say about her singing lessons, singing holidays & online choir projects.

What participants say about Anke's online singing projects

The combination of my individual singing lessons and the Save our Songs Project is ideal for me. Plus, the singing chases away the Corona Blues. (Bettina, Netherlands)

We've done terrific work. I'm starting to make some progress on the breath support principle, holding out my chest and working against the exhale. And I am really loving the mouth shape we practiced. It makes a huge difference to my sound. (Peter, Australia)

After the Zoom rehearsal, I found myself going around the house singing and enjoying myself. Thank you so much for your inspiration! (Ralph, France)

Anke has managed to organize a quality virtual singing project with singers from different countries. The varied song material provides a good challenge. (Peter, Netherlands, about the 'Save our Songs' projects)

When I heard about Anke's new singing projects I was excited. I used to have lessons with her years ago, and now we are in touch again. I am glad to have another chance to develop my singing skills with her. She has guided this project with passion and professionalism. (Emke, Netherlands)

It is so lovely to be singing with you and the others. The videos are really clear. Thank you so much for continuing and for uniting people across the world. (Carol, France)

For me, the fun in this project is the combination of finding joy in singing and at the same time learning something completely new. I have already booked for the next project! (Bettina, Netherlands)

Just want to thank you for another of your wonderful lessons. I really appreciate your approach. The way in which you fish the voice out from those hidden depths is marvellous and makes me feel so satisfied and pleased with myself afterwards! (Jackie, Sweden)

Thanks to the Corona crisis I am now taking singing lessons with Anke. It is a real benefit. Together, we monitor my posture on the screen, and through Zoom, I can record the lesson. Anke's enthusiasm and creativity during my weekly singing hour give me the energy boost that I so need in these times. I have learned so much and I rediscovered my joy of singing! (Brenda, Netherlands)
